<sup>1</sup> A “super PAC” may make only independent expenditures with respect to federal elections and may not make contributions to federal candidates, parties, and traditional PACs.

<sup>2</sup> These are combined limits, shared with federal accounts of all other state and local committees of same party in same state.

<sup>3</sup> National Party Committees may contribute up to \$51,200 to each U.S. Senate candidate. The \$5,000-per-election limit cited above applies to National Party Committees’ contributions to other federal candidates.
